Please find below and/or attached an Office communication concerning this application or proceeding.

Interview Summary	Application No. 09/629,241	Applicant(s) COLLETT, MAURY E.	
	Examiner Naschica S Morrison	Art Unit 3632	

All participants (applicant, applicant's representative, PTO personnel):

(1) Naschica S Morrison. (3) _____.

(2) James Parker. (4) _____.

Date of Interview: 12/16/04, 12/17/04.

Type: a) ☒ Telephonic b) ☐ Video Conference
c) ☐ Personal [copy given to: 1) ☐ applicant 2) ☐ applicant's representative]

Exhibit shown or demonstration conducted: d) ☐ Yes e) ☒ No.
If Yes, brief description: _____.

Claim(s) discussed: 14.

Identification of prior art discussed: n/a.

Agreement with respect to the claims f) ☒ was reached. g) ☐ was not reached. h) ☐ N/A.

Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: On December 16, 2004, Applicant was advised that the examiner and her supervisor, Leslie Braun, had reviewed the case as requested and determined claim language which would place claim 14 in condition for allowance. On December 17, 2004, Applicant was provided with a marked up copy of claim 14 that incorporated the suggested claim language (see attached email).

(A fuller description, if necessary, and a copy of the amendments which the examiner agreed would render the claims allowable, if available, must be attached. Also, where no copy of the amendments that would render the claims allowable is available, a summary thereof must be attached.)

THE FORMAL WRITTEN REPLY TO THE LAST OFFICE ACTION MUST INCLUDE THE SUBSTANCE OF THE INTERVIEW. (See MPEP Section 713.04). If a reply to the last Office action has already been filed, APPLICANT IS GIVEN ONE MONTH FROM THIS INTERVIEW DATE, OR THE MAILING DATE OF THIS INTERVIEW SUMMARY FORM, WHICHEVER IS LATER, TO FILE A STATEMENT OF THE SUBSTANCE OF THE INTERVIEW. See Summary of Record of Interview requirements on reverse side or on attached sheet.

Examiner Note: You must sign this form unless it is an Attachment to a signed Office action.

Examiner's signature, if required

Morrison, Naschica

Subject: RE: U.S. Patent Application Serial No. 09/629,241; filed July 31, 2000 (Applicant: Maury E. Collett); Atty Docket No. CLT-100

I have incorporated the recommended amendments to claim 14 in the email below. Once again, these changes are suggested in order to place the claim in condition for allowance. Please call with any questions you may have.

Thanks,
Examiner Morrison

Dear Examiner Morrison:

Pursuant to your telephonic discussion with Mr. James S. Parker on this date, following is a copy of claim 14 as currently pending in the subject application.

Claim 14 (previously presented)

A method for securing electrical wiring to [a] an elongated metal framing stud member having a face and two sides with a wiring clip, wherein the wiring clip comprises:

a main body being formed with a U-shaped wire receiving area ;

a first arm, wherein said first arm is located at a first end of said main body, and said first arm comprises a first attachment means for attaching said first arm to a first side of a metal framing member having a face and two sides;

a second arm, wherein said second arm is located at a second end of said main body and said second arm comprises a second attachment means for attaching said second arm to a second side of the metal framing stud member; and

[a] said U-shaped wire receiving area being adjacent the main body, wherein the wire receiving area is located between the first arm and the second arm,

the method for securing comprising the following steps:

a) positioning the electrical wiring parallel to the length of the metal framing

stud member;

b) attaching said first arm to a first side of the metal framing stud member via said first attachment means for attaching said first arm to a first side of the metal framing stud member;

c) moving the wiring clip over the metal framing stud member such that the electrical wiring is positioned within said wire receiving area;

d) attaching said second arm to a second side of the metal framing stud member via said second attachment means for attaching said second arm to a second side of the metal framing stud member such that the wiring positioned within the wire receiving area is secured to the face of the metal framing stud member wherein the wiring positioned within the wire receiving area is centrally positioned on the face of the metal framing stud member between the first side of the metal framing stud member and the second side of the metal framing stud member and whereby the wiring clip is in continuous contact with the metal framing stud member except at the U-shaped wire receiving area.

We look forward to receiving your suggested amendments.

Sincerely,

Gwendolyn L. Daniels
